**Letter to parents: Summer Immunization Campaign for Kindergarten, Grade 6 and Grade 9 students**

Dear Parent/Guardian,

British Columbia's immunization program offers targeted vaccinations to students in Kindergarten, Grade 6 and Grade 9 to protect them against infectious diseases such as meningitis and pneumonia. The COVID-19 pandemic interrupted some Public Health programming, and as a result, many students are overdue for important vaccines.

To catch up, Public Health will lead Vancouver-based immunization clinics **throughout the summer** for students who have missed their Kindergarten, Grade 6 or Grade 9 vaccines during the 2019/2020 or 2020/2021 school years. This opportunity is also available for children entering Kindergarten in September 2021. Note: if your child is going into Kindergarten, Grade 6 or Grade 9 in the 2021/2022 school year, there will be opportunities for your child to get immunized at school.

Please refer to the attached schedule for clinic locations, dates and hours of operation. More appointments will be added throughout the summer. Appointment booking can be completed online at <http://vancouver.schoolimmunization.janeapp.com>. Be sure to enter information for your child when booking their appointment.

If you do not have access to this online booking option or need assistance, please call your local community health centre (contact numbers attached). Further information about this immunization campaign can also be found on the VCH website: <http://www.vch.ca/public-health/communicable-diseases-immunizations/immunizations/immunizing-your-child>

To support physical distancing, we ask that only one parent or guardian per student attend the clinic. Please do not attend the clinic if you have symptoms of COVID-19, have travelled in the last 14 days, or

you have been asked to self-isolate by Public Health as a close contact of someone who has tested positive.

**Please note, we are unable to offer the COVID-19 vaccine at these clinics at this time.** For information about getting your child immunized against COVID-19, please visit [www.getvaccinated.gov.bc.ca/s/](http://www.getvaccinated.gov.bc.ca/s/) or call 1.833.838.2323.

Thank you for taking the time to ensure your child's immunizations are up to date. For more information on the school based immunization program and vaccine schedules see [immunizebc.ca](http://immunizebc.ca).

Sincerely,

**Dr. Alex Choi, MD MHSc CCFP**  
Medical Health Officer  
Vancouver Coastal Health
