Imagine going to school only half a day and then spending the rest of the school day at a gymnasium, concert hall or even golf course.

The Sparts program was introduced at Magee in 1985 to offer an educational program to students participating in High Performance Athletics at the provincial, national, or international levels, and to students performing in an area of the Arts at an extremely high level of excellence. Since then, the Magee Sparts program has seen a number of athletes and artists go on to have successful careers in their chosen disciplines.
